

P.S. The cover and making of the plates to copy the pictures from was made by a friend that also graduated in '61 but from H.S. in Montana. She worked hard on the project after I did the collage -

Why did I, a person that sends Xmas cards in February, think I could pull off this photographic extravaganza on time? - Oh well, maybe it's nice to know some of us never change. ☺

Upon arriving home from my reunion I found my partner putting our 5 month old craft and antique business. That immediately put this project on hold for quite awhile. I'm beginning to get some perspective on my life (and some time off) Now, at last, the pictures are almost in the mail.

Everyone in the Albany area that contributed to the success of the 25th did a Great Job! The special care and work that went into getting almost everyone there (except Judy & Ed) ☺ was just a ^{part of} a superb effort - Polly wish there could have been more time to spend with everyone - I missed the Friday night people on Saturday - I didn't understand everyone wouldn't attend all of the activities.

Thanks again, to all of you that helped! I hope in some small way this overdue endeavor helps to repay all of your hard work. Love to the Northwest!
fondly, Gail
